SUMMARY

Passionate Computer Science student with strong expertise in full-stack web development, database management, and scalable application design. Experienced in delivering real-world projects through freelance work and academic initiatives. Seeking a summer training opportunity to contribute technical skills while gaining valuable industry experience in software engineering and data analysis.

EDUCATION

Bachelor of Science in Computer Science | Aug-2020 – Jan-2026

King Fahd University of Petroleum & Minerals

- CX Concentration in Computer Networks

EXPERIENCE

Freelancer web developer | 2024 – Present

Remotely

- Developed 5+ fully functional websites with high performance and designed Figma prototypes.
- Designed and built InCall Tool: a scheduling web app for doctors, managing their rotations, unavailability, and shift distribution based on custom logic.
- Created two corporate static websites, enhancing company branding through clear contact, location, and about pages.
- Delivered two detailed Figma prototypes for a fintech platform and a car showroom bidding app, aligning with client UX expectations.

Owner & E-commerce Manager | 2023 – Present

Salla.com

- Launched and managed an e-commerce store, handling product listings, marketing campaigns, supplier negotiations, and order fulfillment.
- Increased customer satisfaction through proactive customer service and optimized business operations.

Core Member – Media and Design | 2023 – Present

KFUPM Computer Science Club

- Designed promotional graphics and marketing materials for club events.
- Managed audio production, ensuring high-quality sound design for activities and seminars.

PROJECTS

[\(View More\)](#)
